ABSTRACT

This report was prepared by the Texas Education Agency in response to Section 39.183 of the Texas Education Code. It consists of five sections. Section 1, "Class Size Limitations," is a summary of school-district compliance with the class-size limitations prescribed by Section 25.112, including the number of districts granted an exception from these limitations. Section 2, "Waivers and Exemptions," summarizes the exemptions and waivers granted to school districts under Section 7.056 or 39.112, and reviews the effectiveness of the campus or district following deregulation. Section 3, "Regional Education Service Center Services," presents a summary of the services offered by regional education service centers with an evaluation of the effectiveness of those services. Section 4, "Accelerated Reading Instruction Program Funding," is an evaluation of accelerated instruction programs offered under Section 28.006, including an assessment of the quality of such programs. Section 5, "Teachers Not Certified in Content Areas," presents the number of classes at each campus that are taught by individuals who are not certified in the content areas of their respective classes. The report provides summary information with analysis, as specified in statute. Name and telephone numbers of contact persons, and other sources of information, are given in the introduction. (RT)

Felipe T. Alanis
Commissioner of Education

December 2002

The Honorable Rick Perry, Governor of Texas
The Honorable Bill Ratliff, Lieutenant Governor of Texas
The Honorable Pete Laney, Speaker of the House
Members of the 78th Texas Legislature

I am pleased to provide to the 78th Texas Legislature the *Regional and District Level Report* which was prepared in response to Section 39.183 of the Texas Education Code. This report contains a summary of exceptions to the maximum class-size requirements, a summary of the exemptions and waivers granted to school districts under Section 7.056 and Section 39.112, a summary of services offered by regional education service centers, an evaluation of accelerated instruction programs offered under Section 28.006, including an assessment of the quality of such programs and the performance of students enrolled in such programs; and the number of classes at each campus that are currently being taught by individuals who are not certified in the content areas of their respective classes.

This report is now transmitted to you as required by state law.

Respectfully submitted,

Felipe Alanis
Commissioner of Education

Introduction vi

Section I
Class Size Limitations 1

Section II
Waivers and Exemptions 5

Section III
Regional Education Service Centers 7

Section IV
Accelerated Reading Instruction Program Funding 23

Section V
Teachers Not Certified in Content Area 27

Introduction

The following report is prepared by the Texas Education Agency in response to Section 39.183 of the Education Code. This report contains the five sections identified below.

Section I.
Class Size Limitations—a summary of school district compliance with the class-size limitations prescribed by Section 25.112, including the number of districts granted an exception from these limitations;

Section II.
Waivers and Exemptions—a summary of the exemptions and waivers granted to school districts under Section 7.056 or 39.112 and a review of the effectiveness of the campus or district following deregulation; and

Section III.
Regional Education Service Center Services—a summary of the services offered by regional education service centers with an evaluation of the effectiveness of those services.

This report provides summary information with analysis, as specified in statute. The detailed information upon which the summary reports were prepared is available from the Texas Education Agency upon request.

Section IV.
Evaluation of accelerated instruction programs offered under Section 28.006, including an assessment of the quality of such programs.

Section V.
The number of classes at each campus that are taught by individuals who are not certified in the content areas of their respective classes.

This report provides summary information with analysis, as specified in statute. The detailed information upon which the summary reports were prepared is available from the Texas Education Agency upon request.

Agency Contact Persons
For information on regional education service centers, Phillip M. Cochran, Director of ESC/Higher Education Financial Support, (512) 463-9371.

For information on class size limitations and general state waivers, D. Kay Curlee, Manager, State Waivers, (512) 463-9630.

For information on federal Ed-Flex waivers, B.J. Gibson, Assistant Commissioner, Department of State and Federal Student Initiatives, 512-463-4090.

For information on Accelerated Reading Instruction, Melanie Pritchett, Assistant Commissioner for Statewide Initiatives, (512) 463-9027.

For information on Teacher Certification, State Board for Educator Certification, (512) 469-3000.

Other Sources of Information
For a list of general state waivers granted by the commissioner of education, see the waiver report included in the agenda for each State Board of Education (SBOE) meeting. For additional information on class size waivers, general state waivers and federal Ed-Flex waivers, see the agency's home page at www.tea.state.tx.us. For information relating to regional education service centers and links to each ESC's website, see the agency's home page at www.tea.state.tx.us.

Section I
Class Size Limitations

A statutory limitation applicable to the size of classes in certain elementary grades was adopted by the Texas Legislature in1984. In a phase-in approach written into the law, the limit of 22 students to one teacher applied in the 1985-1986 school year through the 1987-1988 school year to kindergarten through grade 2 only. The law extended this limitation to kindergarten through grade 4 beginning with the 1988-1989 school year. Today, it is generally recognized that smaller class size in elementary grades positively affects student achievement. Smaller class size may have contributed to the educational gains in Texas public schools.

Most school districts in Texas comply with the class size limitations. Because of the continuing growth of the state's student population and its mobility, temporary exceptions from the application of the limitation are still needed by some districts, usually for only a few of their classes. (NOTE: Although statute employs the term "exception," the public is more familiar with the term "waiver." Therefore, "waiver" is used in this report.)

The commissioner of education may grant class-size waivers only in cases of undue hardship. Waivers are granted under the following criteria: (1) a district is unable to employ qualified teachers; (2) a district is unable to provide educational facilities; or (3) a district which has budgeted for a class-size ratio of 22:1 in kindergarten through grade 4 but has a campus (or campuses) with enrollment increases or shifts that result in exceeding this limit by only one or two students in only one section at any grade level on any campus. By law, a class size waiver may be granted for only one semester at a time. The following table shows the number of class size waivers granted for districts as well as the number of campuses and sections covered each semester from 1993-1994 to 2001-2002.

Class Size Waivers
Granted by the Texas Education Agency

10/04/2002

Texas Education Code, Section 37.112, Excellence Exemptions, authorizes the commissioner of education to exempt an exemplary school campus from elementary class size limits under certain conditions. The district must submit to the commissioner a written plan showing steps that the campus will take to ensure that the exemption from the class size limits will not be harmful to the academic achievement of the students enrolled in the campus.

PERFORMANCE RATINGS	2000-2001 School Year		2001-2002 School Year	
	Number	Percentage	Number	Percentage
ELEMENTARY CAMPUS RATINGS STATEWIDE				
Exemplary	925	24.6%	1,209	31.7%
Recognized	1,393	37.1%	1,450	38.0%
Acceptable	1,395	37.1%	1,085	28.4%
Low Performing*	43	1.1%	73	1.9%
CAMPUSES NOT COVERED BY CLASS SIZE WAIVERS				
Exemplary	820	26.7%	1,046	33.1%
Recognized	1,135	36.9%	1,186	37.5%
Acceptable	1,083	35.2%	870	27.5%
Low Performing*	35	1.1%	59	1.9%
CAMPUSES COVERED BY CLASS SIZE WAIVERS				
Exemplary	105	15.4%	163	24.8%
Recognized	258	37.8%	264	40.2%
Acceptable	312	45.7%	215	32.8%
Low Performing*	8	1.2%	14	2.1%

The campus performance rating is a consideration for the approval of Class Size waivers.

* All campuses covered by the waiver are expected to have an accountability rating that is at least acceptable if the waiver request is due to shortages of facilities and/or teachers. Unanticipated enrollment growth may only be cited as the reason for the waiver request if no more than one section per grade level at a campus has more than 22 students.

Percentages Represent Campuses Rated as "Exemplary" or "Recognized"

School Year	2000-2001	2001-2002
Campuses Not Covered by Class Size Waivers	63.6%	70.6%
Campuses Covered by Class Size Waivers	53.1%	65.1%

Fewer campuses were covered by Class Size waivers for the 2001-2002 school year than for the 2000-2001 school year. Additionally, a greater percentage of campuses covered by Class Size waivers were rated as "exemplary" or "recognized" during the 2001-2002 school year than for the 2000-2001 school year. The percentage of campuses covered by Class Size waivers and receiving either "exemplary" or "recognized" ratings increased to 65.1 percent for the 2001-2002 school year from 53.1 percent for the previous school year. This increase represents a 22 percent improvement in those ratings for campuses covered by Class Size waivers as compared to an 11 percent improvement in ratings for campuses not covered by Class Size waivers.

Section II
Waivers And Exemptions

The 72nd Texas Legislature granted the commissioner of education the authority to approve or deny all requests for waivers of state law and State Board of Education rules. The purpose of waivers is to set aside a requirement or prohibition imposed by law or rule that inhibits student achievement. A waiver request may apply to one or more campuses in the district, or to the district as a whole. Every waiver request requires the approval of the local board of trustees and must be developed with the involvement of the district or campus Site-Based Decision-Making Committee, as appropriate.

The 74th Texas Legislature continued this waiver authority and broadened it with the rewriting of the Texas Education Code (TEC). The new code provided in TEC, Section 39.112, Excellence Exemptions, that districts or campuses rated as "exemplary" under the state's accountability system are automatically exempt from many provisions of law.

According to TEC, Section 7.056, a waiver may not be granted if it relates to any of the following:

- essential knowledge or skills;
- minimum graduation requirements;
- public school accountability;
- restrictions on extracurricular activities;
- health and safety;
- purchasing;
- elementary school class size limits, except as otherwise provided by law;
- removal of a disruptive student from the classroom;
- at-risk programs;
- prekindergarten programs;
- educator rights and benefits;
- special education programs;
- bilingual education programs;
- conduct that constitutes a criminal offense; and
- requirements imposed by federal law or rule.

Waiver initiatives enable local authorities to develop innovative means for assisting all students to demonstrate exemplary performance in reading, and in the foundation subjects of English language arts, mathematics, science, and social studies.

State Waivers

While the new Texas Education Code greatly enhanced local authority, school districts and campuses continue to seek waivers from state laws and rules they believe impede efforts to improve student performance. During the 2001-2002 school year, the commissioner of education granted 1,321 general waivers from state laws.

State Waivers Approved, 2001-02

Type of Waiver	
Expedited	
Staff Development	406
Staff Development for:	
Reading/Language Arts; Mathematics; Science and Social Studies	178
Conference	28
Modified Schedule-	
Texas Assessment of Knowledge and Skills	152
Early Release Days	280
General	
Course Requirements	12
Certification	31
Disciplinary Alternative Education Campus	3
Education Home Instruction	11
First Day of Instruction for Students	62
Alternative Education Program Attendance	12
Student Identification/Gifted and Talented	6
Foreign Exchange Students	14
Pregnancy-Related Services	16
Textbooks	94
Other Miscellaneous Waivers	16
Total Waivers Approved	1,321

The type of waiver most frequently requested allows a district or campus to modify its calendar to make additional time available for staff development. For the 2001-2002 school year, the commissioner of education approved waivers granting a maximum of three days for general staff development. These waivers for general staff development accounted for 30.7 percent, or 406 of the general state waivers approved in the 2001-2002 school year. To encourage staff development related to reading/language arts, mathematics, science, and social studies, the commissioner approved an additional two days for waivers. One additional day of staff development was approved for districts requesting to participate in eligible conferences. A total of 206 districts requested one or all of these additional days for staff development.

The overall impact of general state waivers may be seen in improved student educational performance statewide, including rising Texas Assessment of Academic Skills scores and gains in the number of campuses achieving exemplary status under the state's accountability rating system. In the 2001-02 school year, the number of exemplary districts was at 143, or 13.8 percent of the total, and the number of exemplary campuses increased to 1,908 or

26.1 percent of the total campuses. The comparable numbers for the 2000-01 school year were 178 or 17.1 percent of the districts and 1,571 or 24.2 percent of the campuses.

Education Flexibility Partnership Act (Ed-Flex) Status

Ed-Flex is a federal program that grants a state the authority to waive certain federal education requirements that may impede local efforts to reform and improve education.

Ed-Flex is designed to help districts and schools carry out education reforms and raise the achievement levels of all children by providing increased flexibility in the implementation of certain federal education programs in exchange for enhanced accountability in the performance of students.

During the 2001-2002 school year, the commissioner of education used his Ed-Flex authority to grant four statewide administrative waivers to all local education agencies (LEAs). These waivers reduced administrative paperwork for the federal programs covered under Ed-Flex without the need for individual application.

The following two statewide programmatic waivers were available in 2001-2002:

1) **Title I, Part A Program—Schoolwide Eligibility.** This waiver eliminated the 50 percent poverty requirement for Title I, Part A schoolwide eligibility. This waiver was available to campuses that were eligible for Title I, Part A services, but which did not have at least 50 percent of its students from low-income families.

In school year 2000-2001, 371 Title I, Part A campuses in the state were operating Schoolwide programs under this waiver. In order to be approved for a Schoolwide waiver for school year 2001-2002, the campuses were required to demonstrate that their economically disadvantaged students had made gains in student achievement during the previous waiver period. In 2001-2002, 367 campuses applied for a Schoolwide Eligibility waiver. Of these, 287 waivers were granted, 73 were not needed, and 7 were denied because of failure to meet the minimum student achievement gains required for renewal. Of the 287 waivers that were granted, 236 were to campuses that had previously implemented a Schoolwide waiver and had demonstrated the required gains; 51 waivers were to campuses that had not previously had a Schoolwide Eligibility waiver.

2) **Title II, Part B—Eisenhower Professional Development Program—Subject Priorities.** This waiver allowed the use of up to 25 percent of Title II Eisenhower Professional Development Program funds reserved for professional development in math science for professional development in reading/language arts and in social studies.

In school year 2000-2001, 64 Subject Priority waivers were in effect. Three of these waivers were granted to Shared Services Arrangements; therefore, the total number of LEAs affected by this waiver was 185. In order to be approved for a Subject Priority waiver for school year 2001-2002, the LEAs were required to demonstrate that their students had made gains in achievement scores for mathematics during the previous waiver period. In 2001-2002, 23 LEAs applied for a Subject Priority waiver; 18 of these were granted and 5 were not needed. Of the 18 Subject Priority waivers that were approved, 17 were to LEAs that had previously implemented a Subject Priority waiver and had demonstrated the required gains; one was to an LEA that had not previously had a Subject Priority waiver.

In addition to the statewide programmatic waivers that were available, LEAs could also request Individual Programmatic Waivers, based on their specific program needs. To request an Individual Programmatic Waiver, an LEA submitted a separate waiver application, which was then reviewed by the State Ed-Flex Committee. Based on the recommendation of the Committee, the Commissioner can approve or deny the waiver.

The evaluation criteria for the Individual Programmatic Waivers have been stringent in order to ensure that the intended beneficiaries of the affected programs are not negatively impacted as a result of waiving statutory requirements. In 2000-2001, a total of 26 Individual Programmatic Waivers were in effect: 9 of them were scheduled to expire at the end of the 2000-2001 school year. In order to be eligible to reapply, the waiver recipients were required to demonstrate that they had met the evaluation criteria for their waiver. Three LEAs chose to reapply for 2001-2002, and their waivers applications were granted for an additional three years. Three other LEAs that had not previously participated also requested and received Individual Programmatic waivers beginning in 2001-2002. A total of 17 Individual Programmatic Waivers were scheduled to expire at the end of the 2001 2002 school year. These waiver recipients will be eligible to reapply for these waivers contingent on their evaluation results. Applications for new Individual Programmatic Waivers for the 2002-2003 school year will be reviewed by the State Ed-Flex Committee.

The number of waivers meeting the required evaluation criteria indicates that the Ed-Flex Program is an important component in the state's reform efforts to improve student performance.

Section III
Regional Education Service Centers

Since their creation in 1965, Texas' twenty regional education service centers (ESCs, regions, centers) have played an integral role in the provision of necessary and essential services to school districts and charter schools in the implementation of school reform and school improvement. In that effort the ESCs have carried out the mandates of the Texas Legislature and the Commissioners of Education to assist school districts of all sizes in their efforts to improve the performance of Texas school children. These efforts have proved themselves absolutely critical in the overwhelmingly positive improvement of Texas school districts and school children over the past twenty years. In that cause, the centers have focused their collective and individual expertise and resources on providing Texas' educators with professional development and technical assistance as well as administrative and financial support, which have assisted in their success. In recent years, the ESCs have taken the lead in preparing Texas reading and math teachers to meet the ever increasing demands of Texas Assessment of Academic Skills (TAAS) and now the Texas Assessment of Knowledge and Skills (TAKS). Additionally, the ESCs have been sharply focused on assisting the Texas Education Agency in promoting the financial health and viability of Texas school districts during rapidly changing and more complicated financial times.

Purpose

The Texas Legislature has clearly defined the purpose of the education service centers:

(1) assist school districts in improving student performance in each region of the system;

(2) enable school districts to operate more efficiently and economically; and

(3) implement initiatives assigned by the legislature or the commissioner of education.

In that effort, the commissioner works closely with the ESCs to establish performance goals as they relate to school districts and their students.

Background

Regional education service centers are intermediate educational units that provide training, technical assistance, administrative support, and an array of other services as determined by the legislature, the commissioner of education, and the needs of local school districts and charter schools. Most often associated with assistance to small and medium-sized school districts, the ESCs have a long history of providing assistance to all districts, including metropolitan and large suburban districts. As will be noted later in this report, the commissioner's annual evaluation of client satisfaction indicates that superintendents, principals, and teachers in large suburban and metropolitan school districts rate the work of the ESCs as high as small and medium-sized school district personnel.

All of these services are reviewed annually in a multi-phased review of the education service centers and the quality and effectiveness of their services as reflected in an analysis of both student achievement and client satisfaction measures.[1]

The education service centers began as federally funded media centers and have developed into full-service education service centers as the needs of Texas' schools have expanded. The following synopsis delineates that history of expanded service.

A Brief History of Regional Education Service Centers

1965 - Title III of Elementary and Secondary Education Act passed by Congress provided limited funding for instruction-related training and services for teachers. Twenty media centers were established by the Texas Legislature to provide Title III funded services.

1967 - Existing media centers were incorporated into ESEA, Title III-funded service centers. Legislative appropriation of $1.00 per average daily attendance (ADA) provided funding for media centers and required participating districts to provide matching funds. The role and scope of centers expanded. Centers were directed to assist with the coordination of educational planning.

1969 - Statewide computer services system was established in centers with $1.00 per ADA funding.

1971 - Centers receive initial basic state support for regional services to schools, regional coordination in planning, and for center administrative costs.

[1] Staffing, services, and TAAS/TAKS information is taken from various reports submitted to the Texas Education Agency. Student performance data are from the Academic Excellence Indicator System for 2001-2002. Financial information is taken from ESC audit reports for the period ending August 31, 2001. The centers' Annual Financial Reports for fiscal year 2002 fiscal data will be available by January 2003 and in PEIMS by February 2003.

1977 - Management and Services audits of centers began.

1984 - H.B. 72 expands centers working relationship with the Texas Education Agency in two areas: to raise the quality of school programs and to bring uniformity and continuity to school district operations. Centers assume new role in the area of decentralized services. ESCs take on technical assistance function in the implementation of Public Education Information Management System (PEIMS). Centers take the lead in the training of local school boards.

1986 - State Board of Education adopts the State Plan for Regional Education Service Centers defining the roles of the centers and their relationship to the agency. Essential functions of the centers are defined.

1988 - State Plan for Regional Education Service Centers is reviewed and updated.

1989 - Commissioner is authorized to enter into performance contracts with centers for technical assistance and other services related to accreditation, training, and curriculum as well as the implementation of Public Education Information Management System (PEIMS).

1990 - Price Waterhouse study of agency recommends assigning "operational technical assistance" to the centers.

1992 - State Board of Education rules revised to provide greater authority to the commissioner in three areas of center operations: (1) selection of center executive director, (2) center budget approval, and (3) annual performance evaluation of the executive director for continued employment. Following legislative mandate, agency begins decentralization of functions to ESCs including certification officers (10 FTEs) and child nutrition program specialists (30 FTEs). Agency also establishes Field Service Agent and Partnership Schools Initiative programs and transfers 70 FTEs to centers.

1995 - Section 8 of Senate Bill 1 restructures centers identifying core services and a market-driven structure. Rider 44 to Article III of the General Appropriations Act of 1995 directed decentralization of several agency functions. ESC role is expanded in providing technical assistance to school districts in accreditation monitoring.

1996 - Commissioner conducts *ESC 2000* study in preparation for sunset review of centers by the 75th Texas Legislature.

1997 - 75th Texas Legislature re-authorizes the centers and adopts a revised Section 8 clarifying the centers' role and function in improving student performance. Subchapter C clearly affirms the role of the commissioner in establishing a process of evaluation and accountability for the ESCs. Section 8.102 directs the commissioner to develop a uniform system of reporting for the centers, including information on client satisfaction. Section 8.103 provides for an annual evaluation of each executive director and ESC, and section 8.104 provides the commissioner with the power to sanction failing education service centers. Additionally, Chapter 8 requires the provision of Core Services to school districts within each region.

1998 - The commissioner enters into a contract with the Texas Center for Educational Research to develop a third party client satisfaction survey. The survey is piloted in October and November 1998 and is fully implemented in the spring of 2000.

1999 - 76th Texas Legislature authorizes the Student Success Initiative, better known as the Texas Reading Initiative, with intensive reading training for all kindergarten, first, and second grade teachers scheduled for the summers of 1999, 2000, and 2001. The ESCs function as the primary administrators and providers of this training.

2001 - 77th Texas Legislature expands the Texas Reading Initiative to the third and fourth grades and authorizes the implementation of intensive training for math teachers beginning with grades five through eight. The ESCs serve as the primary administrators and providers of this training.

Education Service Center Location and Governance

The map of the regional education service centers (Attachment I) shows the location of each of the 20 centers. ESCs are assigned responsibility for providing core services to each school district, campus, and charter school within their respective regional boundaries. Districts, however, may elect to receive services from any service center in the state. The State Board of Education defined the regions in 1967, as a geographic area of counties and the encompassed school districts. Since 1995, the commissioner of education has had final authority over all aspects of ESC location, governance, and accountability issues.

Each center is governed by an eight-member board of directors. Seven of those directors have voting power and are elected by the boards of trustees of school districts within the region. The eighth member is appointed by the commissioner of education to represent charter schools within the region and is a non-voting member. Each ESC's board of directors, with the approval of the commissioner of education, selects an executive director who serves as

the chief executive officer of that center. The center's board establishes policies that govern the operation of the center. In addition to its board of directors, each center has several key advisory committees composed of stakeholders in the various service areas, including teachers, campus and central administrators, and superintendents and directors of charter schools. These committees provide input to the executive director regarding programs and services.

Education Service Center Staffing

It is the responsibility of the each center's executive director, operating under the policies of the center, to employ necessary personnel to carry out the functions of the center. An analysis of center personnel data reveals the following information in regard to gender, ethnicity, and funding patterns (excluding contract and/or temporary employees). As of September 1, 2002, the centers employed a total of 4,270 full and part-time employees.[2]

Gender and Ethnicity	
Male	22.59%
Female	77.41%
White	57.74%
Hispanic	35.53%
African American	05.91%
Asian American	00.58%
Native American	00.24%

The analysis also reveals that the funding for center personnel is largely from federal funds followed by local and then state sources. The following chart represents these funding patterns.

Source of Personnel Funding			
Professional Staff		**Support Staff**	
State	22.26%	State	11.79%
Federal	38.23%	Federal	52.19%
Local	39.51%	Local	36.02%

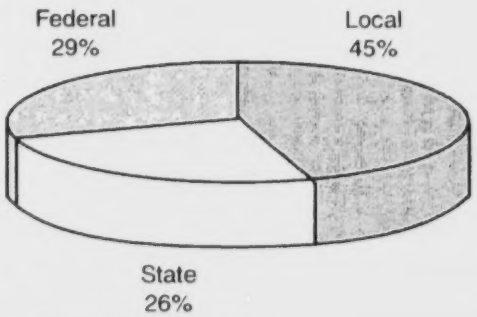
Of these employees, 91 percent are assigned to either direct or support services to schools and school personnel. The remaining 9 percent represent the centers' administrative, operations, and management functions.

Revenues

2002-2003 Budgeted Revenues. The regional education service centers have access to a combination of financial resources (state, federal, and local) to provide services within each region. For school year 2002-2003, the centers budgeted revenues in excess of $470 million. Local revenues are the largest element of ESC revenues representing nearly 45 percent of total projected revenues for 2002-2003. The steady increase in local revenues over previous years is testimony to the partnership between the centers and the client schools they serve. The following chart and graph gives a picture of anticipated and budgeted revenues for 2002-2003.

ESC Revenues	
State Revenues	26.35%
Federal Revenues	28.80%
Local Revenues	44.85%

2003 Budgeted Sources of Revenue



Source: FY 2003 ESC Annual Data Collection

Distribution of these funds ranged from slightly over $5.3 million in Region XV (San Angelo) to over $67.3 million in Region X (Richardson). The three regions (Regions IV, X, and XI) with the largest number of students (comprising 46.47 percent of the total students served in the state) received 29.81 percent of the total revenue. Likewise, the three smallest regions (Region IX, XIV, and XV) that comprise 3.47 percent of the total number of students served in the state received 7.04 percent of the total revenue.

The lack of an exact relationship between the number of students in a region and its funding results from (1) the uniqueness of the various funding formulas, (2) the fact that not all funding is formula driven, and (3) that some funding results from unique contracts for specialized services. A strict per-student analysis of funding would obscure the uniqueness in regional programs, the methods for financing those programs, and the ability of the ESCs to contract with districts, charter schools, and other entities to finance the full operation of the center.

A review of the primary sources of center revenue reveals that seven centers receive the greatest portion of the revenue from federal sources, eleven receive the greatest portion from fees paid by local districts, and two centers

[2] This total includes 1,074 employees (professional and support) in the Head Start Programs operated by Regions 7, 9, 10, 14, 16, 19, and 20.

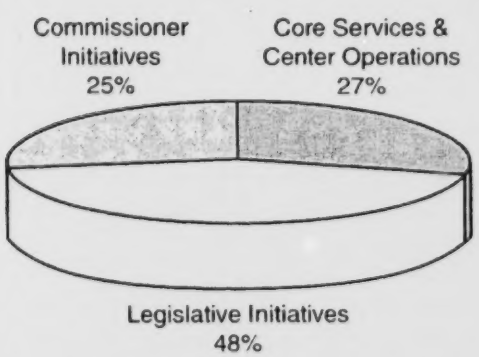
receive their greatest portion of revenue from state sources. For fourteen centers, state revenues represent the smallest source of funding. At four centers, state funds are less than 20 percent of the total revenue, and in one center state funds represent less than 9 percent of total revenue.

State Revenues. State revenues represent funds flowing from the agency to the centers through several different means. Those revenues can be classified into three distinct categories: core services and center operations; legislative initiatives; and commissioner initiatives. Funds for core services and center operations are appropriated by the legislature to support the legislative mandate outlined in Chapter 8 of the Texas Education Code. Other legislative initiatives include such appropriations as those for the Texas Reading Initiative's Reading Teacher Academies, State Visually Impaired program, Technology and Preview Center programs, and the Pregnancy, Education, and Parenting program. Commissioner initiatives include the Centers for Educator Development, Instructional Leadership Development, Student Success Initiative, and the Texas Assessment of Knowledge and Skills (TAKS) Preparatory Academy.

For 2002-2003, the projected amount of state revenues is $124.1 million or 26.35 percent of the total projects 2002-2003 ESC revenues.

By comparison, 2001 audited state revenues reveal that the three basic classifications of state revenues (core services and center operations, legislative initiatives, and commissioner initiatives) provided $117.7 million or 26.69 percent in 2001 revenues to the ESCs.

2001 Audited State Revenue



Source: 2001 ESC Annual Financial Audits

Among the service center programs funded wholly or in part from state revenues:

- Accreditation Assistance
- Adult Education (state)
- Advanced Academic Services
- Certification Assistance
- Core Services and Center Operations
- Curriculum and Instructional Support
- District Effectiveness/Compliance Assistance
- Field Service Agents
- Governor's Reading Initiative
- Media Services
- New Teacher Mentoring (TxBESS)
- PEIMS Support
- Professional Staff Development
- Regional Day School for Deaf
- School Business Operations
- School Improvement Initiatives
- Special Education
- Teacher Reading Academies
- Teacher Recruitment & Retention
- Technology Preview Centers
- Technology Services
- Texas Library Connection
- Texas Pathfinders (formerly Mentor Schools)
- Visually Impaired Services

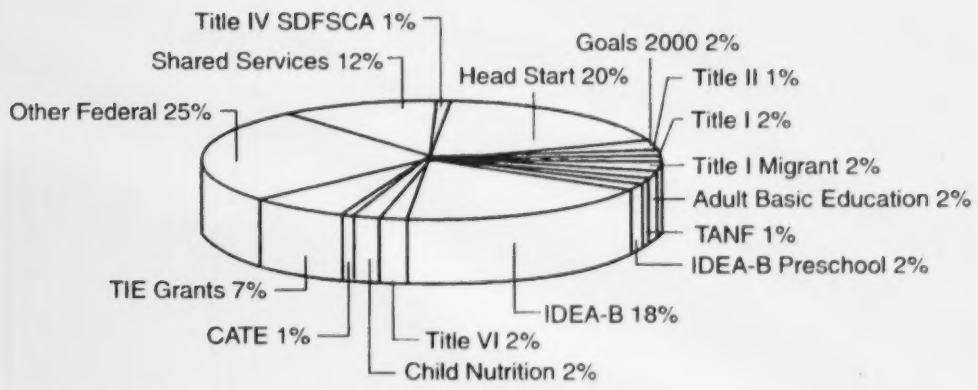
Federal Revenues. Federal revenues represent federal (discretionary and formula) categorical funds, which flow through the agency to the centers either through an earned or competitive process. Although classified as discretionary funds, federal revenues such as Individuals with Disabilities Education Act (IDEA) and Elementary and Secondary Education Act (ESEA) funds also flow on a formula basis.

Federal revenues also include direct federal grants (e.g., Head Start) and categorical funding that flows from other state agencies (e.g., Early Childhood Intervention). In addition to federal education funds, services centers have been increasingly called upon by entities such as the Texas Workforce Commission to manage funds for its regional workforce boards and related projects. Twenty-five percent of the centers' federal funds fall into the category of Other Federal.

For 2002-2003, the projected amount of budgeted federal revenues is approximately $135.6 million (28.80 percent of total revenue).

By comparison, 2001 audited federal revenues provided $193.5 million or 43.87 percent in 2001 revenues for the ESCs. Among the categories of federal revenues is Other Federal, which comprises 25 percent of total federal revenues. Among the many funds comprising that designation, are: McKinney-Vento Education for Homeless Children and Youth; Learn and Serve America; ESEA Title I Even Start; ESEA Title VII Bilingual/ESL; Child Care Development Block Grant.

2001 Audited Federal Revenue



Source: 2001 ESC Annual Financial Audits

Increasingly, the Texas communities and schools have called upon the ESCs to serve in the role of honest broker in the provision of services throughout the regions. Among the many services that the centers now operate are Head Start programs in both urban and rural Texas. Seven ESCS (Regions 7, 9, 10, 14, 16, 19, and 20) serve as prime sponsors for federal Head Start projects. During the 2001-2002 school year, these centers received more than $43.0 million in Head Start revenues. The following chart represents the Regions and the total Head Start funding, which those centers manage.

ESC	Headquarters	Head Start Funding Level	Number of Counties Served	Number of Students Served
VII	Kilgore	$8.8 million	12	2,000
IX	Wichita Falls	$1.2 million	4	610
X	Richardson	$3.6 million	5	698
XIV	Abilene	$0.7 million	5	144
XVI	Amarillo	$6.8 million	14	1,429
XIX	El Paso	$20.2 million	2	3,994
XX	San Antonio	$1.7 million	3	380

Source: 2001 ESC Annual Financial Audits and FY 2003 ESC Annual Data Collection

The total revenues associated with the seven Head Start projects are included in those centers' financial position and represent 20 percent of the total federal revenues to service centers during fiscal year 2001.

Among the center programs funded wholly or in part from federal revenues:

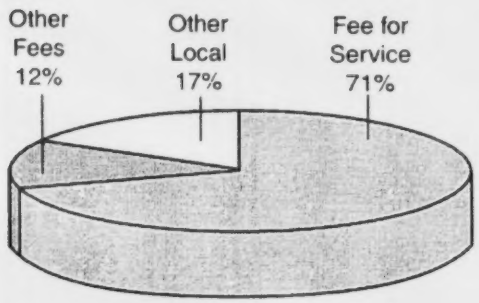
- Adult Education (federal)
- Career & Technology Education
- Charter School Evaluation
- Child Nutrition
- Community, Higher Education, School Partnership
- Early Childhood Intervention
- ESEA Title I, School Support
- ESEA Title I, Migrant
- ESEA Title II, Eisenhower Math/Science
- ESEA Title IV, Safe & Drug Free Schools
- ESEA Title VI, Texas Reading Initiative
- ESEA Title VII, Bilingual Education/English as a Second Language
- ESEA Title XX, TANF
- Head Start
- IDEA-B Preschool Programs
- IDEA-B Special Education Programs
- Learn and Serve America
- McKinney-Vento Education of Homeless Children and Youth
- Project GEAR-UP
- School Improvement Initiatives
- Technology in Education
- Various Federally Funded Cooperatives

Local Revenues. The education service centers have no taxing authority. Participation by school districts in service center programs is strictly voluntary. As a result, service centers must customize and market their services to school districts, charter schools, and private schools as well as outside individuals and entities to generate additional or local revenue. In large measure, local revenues are generated in three ways: (1) fee-for-service, (2) fees generated from sources (e.g., sale of products, etc.), and (3) revenues from other local sources including the internal service fund and from other public and private entities.

For 2002-2003, the projected amount of budgeted local revenue is $211.2 million (44.85 percent of total revenue).

By comparison, 2001 audited local revenues reveal that the three basic classifications of locally generated revenues provided $129.8 million or 29.44 percent in 2001 revenues to the ESCs.

2001 Audited Local Revenue



Source: 2001 ESC Annual Financial Audits

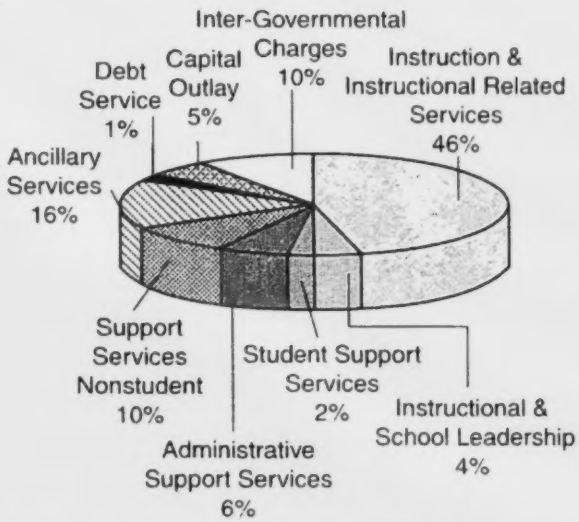
Among the center programs funded wholly or in part from local revenues:

- Administrator Training/Leadership Academies
- Adult Workforce Development
- Alternative Certification
- Bilingual/ESL Consortia
- Bus Driver Training
- Cooperative Purchasing
- Criminal Background Checks
- Curriculum Cooperatives
- Distance Learning
- Driver Education
- Information Services
- Information/Data Services
- Instructional Leadership Development
- Instructional Services
- Instructional Technology Services
- Principal Assessment
- Professional Development
- School Board Training
- School Counseling Services
- School Library Cooperatives
- School Nurses Cooperative
- Special Education Services

Expenditures[3]

The education service centers budget, expend, and account for funds within the accounting system delineated in the Texas Education Agency's *Financial Accountability System Resource Guide*. The agency's accounting system utilizes multilevel accounting including accounting by fund, function, and expenditure code. Because the education service centers are organized to accomplish a service mission that is different from school districts, the costs associated with various functions vary from that of school districts. In the area of shared services arrangements, the service centers frequently serve as fiscal agents for a large number of school districts in order to increase the districts' buying power. For example, all service centers operate and/or subscribe to various types of purchasing cooperatives. These purchasing cooperatives guarantee member districts greater purchasing power through the economy of scale. Expenditures by function are shown below.

2001 Audited Expenditures by Function



Source: 2001 ESC Annual Financial Audits

17

[3] Financial data is from fiscal year 2001. Fiscal year 2002 data will be available after January 2003.

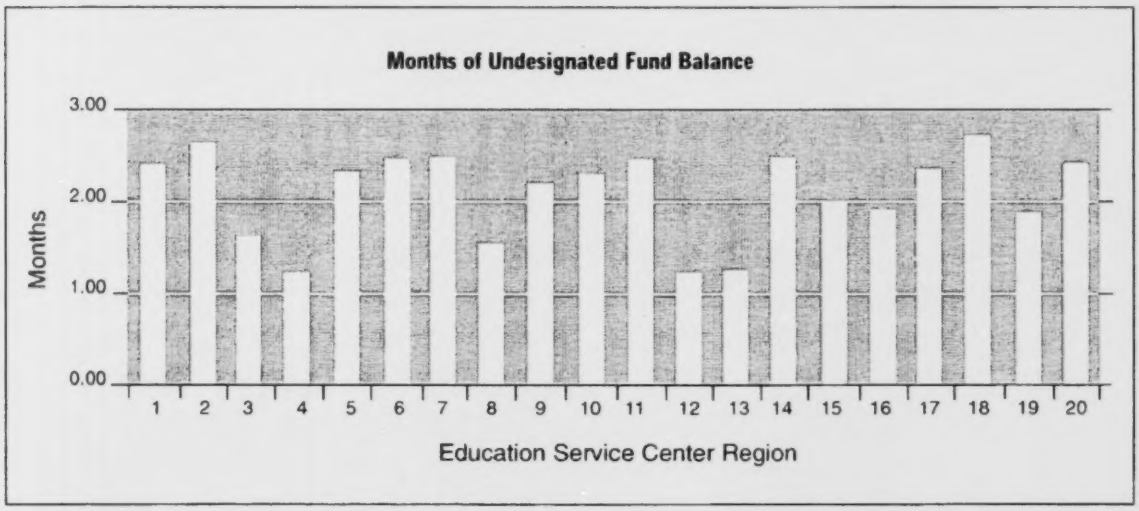
The cost of providing similar levels of services in the different regions also varies by regional economic factors. Certain demographic variables, though not restricted to any one center, determine the cost levels of these similar services. Among the factors influencing these costs are:

1. geographic size of the region;
2. average daily attendance (ADA) of the region;
3. scarcity and density of districts and campuses within the region;
4. number of districts and campuses served;
5. regional economic conditions; and
6. student population characteristics.

Fund Balance

Balances in the general fund represent accumulated revenues that have exceeded expenditures. Unreserved, undesignated fund balance amounts for each year are calculated from center independent audit reports for the respective year by subtracting approved obligations and reserves from ending fund balances. Fund balances of 20 percent of the prior year's expenditures in the general fund represent approximately 2.5 months of operating expenses. Centers with greater than 2.5 months reserve are subject to reduction in core services and center operations funding.[4]

Beginning in 1998-1999, the Texas Education Agency and the education service centers began a reconsideration of the method used to calculate fund balances. At that time, the approved method of determining the unreserved, undesignated fund balance in the general fund was to subtract all obligations and reserves from total expenditures in **all** funds and compare the result to the balance in the general fund. If those general fund balances were less than 20 percent of the total expenditures for a given year, then the ESC was found to be in compliance. That method of calculation has been modified to compare only expenditures less obligations and reserves in the general fund, **not all funds**. The result has been an across the board reduction in the undesignated, unreserved fund balance at each of the regional education service centers.



Source: 2001 ESC Annual Financial Audits

Services

Services provided by the education service centers to school districts, charter schools, administrators, teachers, and other entities are of six major types: core services identified in statute; decentralized agency functions; administrative support for schools; instructional support for schools; direct student instruction; and other locally determined services. The chief purposes of these services are to assist in the improvement of student performance, to assist schools to operate more efficiently and effectively, and to carryout the initiatives of the Texas Legislature and the commissioner of education.

Statewide Initiatives in Reading, Math, and Dyslexia. Among the responsibilities which the centers assumed following the 76th and 77th Legislative sessions were the provision of teacher reading and math academies and the hiring of school finance specialists. In addition, the service centers have trained reading teachers, dyslexia campus contacts, and district dyslexia coordinators in appropriate identification methodology and teaching strategies for students with dyslexia.

18

[4] Unlike school districts, ESCs have no local taxing authority. In order to provide for a physical plant, plant operation, maintenance, renovation, self-insurance, and the like, ESCs must maintain fund balances.

The ESCs have taken the lead in providing reading academies beginning with kindergarten teachers in 1998-1999. During 2001-2002, ESCs provided teacher reading academies for third grade teachers, as well as additional and make-up sessions for teachers in kindergarten through grade 2. Likewise, during school year 2001-2002, ESCs provided academies for math teachers in grades 5 and 6. Also in 2001-2002, centers trained one first grade teacher and one special education teacher from every Texas elementary campus in a two-day professional development academy in appropriate dyslexia identification and teaching strategies; in prior years teachers received dyslexia training in various formats offered by individual centers. The following chart provides an overview of the numbers of teachers trained between school year 1998-1999 and 2001-2002.

	Reading Academies				Math Academies	
School Year	Kinder	1st Grade	2nd Grade	3rd Grade	5th - 6th Grades	Dyslexia
1998-1999	14,377					74,029
1999-2000	3,048	20,950				73,469
2000-2001	1,830	2,600	15,672			76,560
2001-2002	709	4,471	5,234	15,698	10,884	42,455
Total	19,964	28,021	20,906	15,698	10,884	266,513

Source: FY 1999 - FY 2002 ESC Quarterly Performance Reports

Alternative Certification Programs. The regional education service centers also serve Texas public schools as a major source of certified teachers. ESC operated alternative teacher and administrator certification programs have assisted school districts in addressing the widely discussed teacher-shortage issue. Of the 14 service centers that provide alternative certification programs (ACPs), 7,440 prospective teachers have taken the exam for certification (ExCET) from 1998 through 2001. Of that number, the average passing rate for all groups exceeded 95 percent for each year. The passing rate for each subgroup, with one exception, has exceeded 92 percent for each of those years.

ESC Alternative Certification Programs		
School Year	Number of ESC Interns	ExCET Pass Rate
1997-1998	1,817	96.51%
1998-1999	1,787	96.62%
1999-2000	1,735	96.80%
2000-2001	2,101	95.56%

Source: State Board for Educator Certification, 2002

School Finance Specialists. In the area of school finance, the 77th Legislature through HB 2879 directed the commissioner to provide assistance to the regional education service centers in order to provide financial management or planning assistance to school districts and open-enrollment charter schools. As a result, the commissioner funded one full-time finance specialist coordinator and an assistant coordinator at ESC Regions XIII and XVII, respectively, and provided almost $1.2 million to the centers to employ at least a half-time specialist in each center.

The following list of services provided by the ESCs is not exhaustive, but demonstrates the breadth of services provided by the ESCs to districts, campuses, and charter schools in school year 2001-2002.[5]

Core Services (Section 8.051)

Training and technical assistance in teaching reading, mathematics, writing, English language arts, social studies, and science.

Training and technical assistance to programs of special education, compensatory education, bilingual education, and gifted and talented education.

Assistance specifically designed for a school district rated academically unacceptable or a campus whose performance is considered unacceptable.

Training and assistance to teachers, administrators, members of district boards of trustees, and members of site-based decision-making committees.

Assistance specifically designed for a school district that is considered out of compliance with state or federal special education requirements, based on the agency's most recent compliance review of the district's special education programs.

Assistance in complying with state laws and rules.

Core Services (Section 8.121)

Appropriated funds are to provide for the support of Core Services and the necessary administrative and operational expenses of the center.

Distribution of Core Services funding to be based on:

- minimum amount for the operation of a center
- an additional amount that reflects the size and number of campuses served
- an additional amount that reflects the impact of geographic size of the center's service area.

Decentralized Agency Functions:

Special Education Programs:

Driver Education	9,844 Students

Charter Schools. The education service centers also provide a full range of services to all 185 currently operating charter schools in the state. Services, which are available to school districts and campuses, including professional development, instructional and instructionally-related services, and financial and administrative support, are also available to the charter schools. As with school districts, charter schools may choose the education service center(s) from which they receive services.

The State Board of Education issues charters. The following table provides a region-by-region comparison of the change in the number of charter schools that were approved in school year 1999-2000 and school year 2001-2002.

In addition to school districts and charter schools, service centers provide services to private schools in each region.

[8] This list is not intended to be exhaustive of the instructional support services provided by service centers. It is intended to capture the range of services provided and the extent of districts served.

Accountability

The current accountability system for service centers includes the following:

An annual independent audit of the fiscal affairs of each center by a Certified Public Accountant is conducted. An audit report is issued to the board of directors of the respective centers.

An annual desk audit that reviews each center's financial audit, services provided, client appraisal of the effectiveness of those services, funds available and performance of students within the region is performed by the agency. A report is issued to the board of directors of each center.

An on-site Management and Services Audit of each center is conducted on a five-year cycle. A report is issued to the board of directors of each center. Follow-up on-site audits are performed as warranted.

An on-site review of compliance with applicable federal and state statutes and regulations of each center is performed on a five-year cycle.

An annual performance review of each executive director by the commissioner of education is followed by recommendations to each respective center's board of directors concerning the rehiring of the executive director.

Effectiveness of Services

Two measures of the effectiveness of center services are provided: student achievement and client satisfaction appraisal.

Student Achievement. The Texas Education Agency's accountability system uses three basic measures of student performance: the percent of students passing the TAAS, the student dropout rate, and the student attendance rate. These same measures are also applied to the regional education service centers.

Additionally, it is important to understand that the regions echo the diversity of school-district student population. The following table provides a limited view of that regional diversity:[9]

ESC Region	Regional ADA	Number Campuses	Percent African American	Percent Hispanic	Percent White	Percent Other	Percent Economically Disadvantaged
1	280,263.290	461	0.3	94.4	4.9	0.4	72.7
2	99,660.445	248	3.9	62.8	31.8	1.5	41.6
3	52,032.498	156	10.9	39.3	48.5	1.3	38.2

Client Satisfaction. Until 1998, the annual client satisfaction measure consisted of the results of a standard survey of school superintendents conducted for the agency by each center. As a result of the reauthorization of the education service centers by the 75th Texas Legislature, the Legislature directed the Commissioner of Education to ". . . develop a uniform system for regional education service centers . . . to provide information on client satisfaction with services. . . ." (Section 8.102).

During the 1997-1998 school year, the commissioner entered into a contract with the Texas Center for Educational Research (TCER) to develop and pilot a survey of district superintendents, school principals of low-performing campuses, and classroom teachers. Following a review and improvements to the system based on the findings in the pilot project, the commissioner implemented the survey as an periodic practice beginning in the spring of 2000.

In 2002, the TCER conducted an evaluation of clients of Texas regional education service centers. TCER distributed surveys designed to address the particular issues of each group. TCER distributed surveys to 1,041 superintendents and received 770 replies or a 73.96 percent return rate; 1,060 principals and received 393 replies or a 37.1 percent return rate; and 5,080 teachers and received 991 replies or a 19.5 percent return rate. Individuals from all 20 Texas ESC regions responded to the survey. The majority of respondents have at least four years experience as educators in Texas public schools.

Response by Size of District. One of the issues often raised is that of service to metropolitan and large suburban districts. TCER, in designing the 2002 Client Satisfaction Survey, sought to address that issue. In its report to the commissioner, TCER clearly states that superintendent satisfaction is remarkably steady across all size-types of districts: small (1,000 or fewer students), medium (1,000 to 2,999), large (3,000 to 9,999), and very large 10,000 and above). In some categories of services, including reading/language arts, special education, and implementation of statewide initiatives, superintendents of very large districts rated ESC services higher than superintendents of smaller districts.

Superintendents' Responses. Overall, the superintendents are quite pleased with ESC Staff members and their services, assistance, and support they provide. For example, for all types of ESC services 70 percent or more gave one of the two highest satisfaction ratings. This finding is not surprising in view of the strong satisfaction ratings with the ESC administrators. While a small percentage of superintendents reflected some dissatisfaction with various aspects of service center operations, a more positive impression of those operations was dominant by far.

Principals' Responses. Most principals are very satisfied with the services offered by the ESC to support programs for core subjects and special populations. In fact, they were most satisfied with the services and training provided for special education, as well as the services in the staff development area. There was some dissatisfaction expressed with the scheduling of workshops and their logistics as well as with a perceived lack of responsiveness at times by ESC staff members. Those concerns were expressed by few in number, and are overshadowed by the majority of the responses being quite positive.

Teachers' Responses. Teachers indicated their support and strong need for ESC professional development and technical assistance services. They also expressed their strong need for ESC assistance in the core subject areas such as reading/ language arts and for programs dealing special-needs children. Teacher responses were not as effusive as those of the superintendents and principals. This can be explained by the teachers' more narrow perspective. Their concern centered on issues such as content, quality, and cost of professional-development activities. However, they expressed strong need for more training and assistance, especially in core subjects and special populations, evidence that they supported the training being offered.

In addition to the Client Satisfaction Survey, each regional education service center undertakes a client survey of its own. These surveys are particular to each center and ask questions directly related to that center's programs and operations. The results of those surveys are available from each service center.

Section IV
Accelerated Reading Instruction Program Funding

Beginning with the 1999 kindergarten student body, districts and charter schools were required to phase in and implement reading intervention programs for students who are determined, on the basis of early reading instrument results, to be at-risk for reading difficulties, including dyslexia.

The funding formula for Accelerated Reading Instruction (ARI) intervention programs is based on the number of students who did not pass the most recent administration of the reading portion of the Grade 3 TAAS, however, the identification of students requiring intervention support is based on the results of early diagnostic testing as defined in TEC 28.006. Data from these early reading instrument(s) should be the primary criteria for student placement in an early intervention program and LEAs should aggregate data from these instruments after each administration to determine how funding can be used to meet the needs of identified students **on every campus at each funded grade level.**

Identified students should receive additional instruction in the areas of weakness as indicated on the reading instrument(s): phonological awareness, word reading, oral reading accuracy and comprehension of text. While LEAs are able to determine the form, content and timing of instruction, programs must be based on scientific research. LEAs are required to notify the parent or guardian when a student is placed in an intervention program in grades K, 1, 2 and 3.

The Texas Education Agency (TEA) has taken focused steps to assist school districts in preparing students to read at or above grade level by grade 3. The attached information, first mailed to LEAs during the fall of 2001 and referenced in subsequent documents, provides recommendations to guide appropriate intervention instruction.

Accelerated Reading Instruction At a Minimum

1. Identify Students and Instructional Priorities

Instruction for identified students should be appropriate to the student's needs. It should be noted that students who are still developing concepts on the Grade 2 screen of the Texas Primary Reading Inventory (TPRI) are in need of immediate reading intervention. This screen accurately identifies students who are highly likely to be half a year or more below grade level (i.e., below the 35th percentile) on a standardized test at the end of Grade 2 unless intervention is provided. Some at-risk students in grade 2 will only require work on fluency in reading connected text, vocabulary, and comprehension. Others who are performing at lower levels will require instruction in word analysis strategies and phonemic awareness, as well as fluency, comprehension and vocabulary.

Phonemic Awareness: Provide instruction on phonemic awareness according to student needs. Students whose reading behavior is at a beginning first grade stage and who do not have an understanding that words can be divided into separate sounds would receive more instruction on phonemic awareness than children who can already blend and manipulate sounds into words.

Alphabetic Principle: Provide explicit and systematic teaching of sound-letter relationships in a sequence that permits students to assimilate and apply what they are learning. Again, the content of the instruction should match the needs of each individual student.

Decoding Strategies: Provide explicit and systematic instruction for students to rely primarily on print to read familiar words and figure out words they have not seen before. Students need practice in blending the components of sounded out words to learn to quickly and automatically translate the letters or spelling patterns of written words into speech sounds so that they can identify words and gain rapid access to their meaning.

Fluency: Provide for reading and rereading of text that is manageable and decodable as a daily activity with a teacher or more proficient reader. The development of fluency is a priority. As students learn to read words, sentences and stories fluently, accurately and automatically, they no longer have to struggle to identify words and are free to pay closer attention to text meaning. Stories should fit the student's level and fluency will range from 70-90 wpm depending on text difficulty for texts typical of second grade. Accuracy should be at least 90% for difficult material and 95% or higher for easier material. The goal for second grade is to read grade level passages at 90 words per minute with 90% accuracy.

Vocabulary Development: Provide explicit teaching of unfamiliar words. Provide sufficient practice with new words to allow retention.

Text Comprehension: Provide instruction in the use of strategies that have been documented to improve student comprehension.

2. Provide 30 minutes a day of additional systematic/explicit instruction

Identified students should receive an additional 30 to 45 minutes of systematic and explicit instruction each day during regular school hours. While additional assistance may be provided through after school or summer programs, these struggling students must have an opportunity to receive help during the school day. Instructional activities during this extended time frame, and during the regularly scheduled reading period, should be research-based and match the student's instructional level in reading.

3. Provide small group instruction, one adult with 3 to 4 students

Students struggling with reading concepts should be flexibly grouped in groups of up to four children to receive intervention help.

4. Provide a minimum of 60 sessions (12 weeks) for most students

Intervention instruction should occur for a minimum of 60 sessions: however, it is important to note that it would be preferable to offer this support daily throughout the entire school year for students who continue to struggle with reading concepts.

5. Use highly trained professionals to deliver instruction and provide intervention

These professionals should have a deep understanding of the scientific research base for early reading.

6. Coordinate use of funds

Many schools and/or school districts have received funding to address reading improvement efforts through a variety of funding sources, including Reading Academies Grants, Reading Excellence Act, Title I, etc. Coordinating the expenditure of these funds to provide focused professional development, comprehensive reading instruction and meaningful intervention programs for students at-risk for reading difficulties would be both prudent and most effective.

Accelerated Reading Instruction
Students Served in Texas, 1999-2002

Grade	1999-2000	2000-2001	2001-2002	Totals
Kindergarten	***75,340**	93,921	86,937	256,198
First Grade		***109,986**	113,568	223,554
Second Grade			***104,152**	104,152
Totals	75,340	203,907	304,657	**583,904**

*** Cohort group of students who must pass 2003 TAKS Reading**

Reported data is not limited to unique student counts as when reported through PEIMS; student transfers within the school year would be counted more than one time.

2001-2002 Accelerated Reading Instruction Student Data
Statewide Data

Source: 2001-2002 ARI Program Evaluation Reports (self reported by Local Education Agencies)

Grade	Total Student Enrollment	ARI Students Served		*ARI Students demonstrating, at the end of school year, adequate pre-reading skill development		**ARI Students reading, at the end of school year, instructionally on grade level or higher	
	Number	*Number*	*Percent*	*Number*	*Percent*	*Number*	*Percent*
K	302,867	86,937	28.70	57,648	66.31		
1	321,443	113,568	35.33			72,754	64.06
2	318,642	104,152	32.69			71,619	68.76

* Adequate pre-reading skill development as identified by Early Reading Instrument results
Example: students demonstrating success on TPRI Screen (Inventory not required)
Students ready for next grade level reading instruction

** Reading instructionally on grade level or higher as identified by Early Reading Instrument results
Example: TPRI results indicate students reading at instructional level or higher on last 2 stories at assigned grade level
Students ready for next grade level reading instruction

		2	25,959	9,050	34.86			5,306	58.63

Note: The above data reflects reports received from 99.98% of the 1126 LEAs that received ARI funding in 2001-2002. Only two charter schools did not submit the required 2001-2002 ARI Program Evaluation Report.

These data charts reflect the student performance of students who were (1) identified to be at-risk for reading difficulties on the basis of early reading instruments and (2) placed in an Accelerated Reading Instruction (ARI) intervention program at their grade level. While the statewide and regional statistics for student performance by this particular student group of struggling readers does not yet meet our goal of having all students reading on grade level by end of third grade, the total number of students reading on grade level in Grades K, 1 and 2 has increased.

Section V.
Teachers Not Certified in Content Area

Methodology Employed in Calculating In-Field and Out-of-Field

Number and Percentage of Teacher Full-Time Equivalents Assigned In-Field and Out-of-Field in the 2001-2002 Academic Year

Determining In-Field Status

Two data sets are utilized to determine if a teacher is assigned in-field or out-of-field. The first data set is the Public Education Information Management System (PEIMS) data from the Texas Education Agency (TEA). This data includes every teaching assignment for every public school teacher in Texas. The data is submitted to TEA in October of each academic year by the local school districts.

The second data set is the Official Record of Educator Certificates (OREC) from the State Board for Educator Certification. This data includes a record of all the different teaching certificates a person may have.

The two data sets are merged using the person social security number. Once the assignment and certificate data are merged, determining whether a teacher holds the appropriate certificate for her/his teaching assignments is a three-part process. First, it must be determined whether the teacher holds any type of standard certificate. If a person does not hold a standard certificate as of December 31 of the fall semester of the academic year, then that person is automatically considered to be teaching out-of-field.

Second, a determination must be made as to whether the person holds the appropriate certificate for each of the subjects that she or he teaches. If she or he does not possess the appropriate subject area certificate, then she or he is automatically considered to be teaching out-of-field. For example, if a person teaches grade seven language arts, it must be determined if the person holds a language arts certificate. If she or he does not possess a language arts certificate, then that particular teacher is considered to be teaching out-of-field.

Third, if the person holds the appropriate certificate for the subject that she or he teaches, then it must be determined whether the certificate is appropriate for the grade level the teacher is assigned to teach. If the certificate is not appropriate for the grade level that the teacher is assigned to teach, then she or he is considered to be teaching out-of-field. For example, if a teacher is assigned to teach tenth grade biology, then that person must hold a *secondary* biology certificate or *secondary* science composite certificate to be considered teaching in-field. If the teacher held an elementary certificate with a science specialization, she or he would be considered out-of-field because the elementary specialization area does not cover the high school level.

If a teacher holds a target certificate for both the subject area and the grade level to which she/he is assigned to teach, then she/he is considered to be teaching in-field. If the teacher holds a certificate that is not appropriate for either the subject area or the grade level to which she/he is assigned to teach, then she/he is considered to be teaching out-of-field.

For teachers assigned to teach the subject and specialization areas of fine arts, physical education/health, special education, bilingual/ESL, or ESL at the pre-elementary and elementary level, teachers holding only a general elementary certificate are considered to be teaching out-of-field. For example, if a teacher is assigned to teach fine arts but only has a general elementary certificate, then she/he would be teaching out-of-field. However, if the teacher held any type of relevant fine arts certificate—such as an all-level fine arts certificate—she/he would be teaching in-field.

Special Education Teachers

If a teacher is assigned to teach special education students—regardless of the subject area or course that she/he is teaching—then that teacher is considered to be a special education teacher and is placed in the special education subject area group. Thus, for example, if a teacher is assigned to teach a middle school grade seven mathematics course but the population served by that teacher is designated as special education, then that teacher is considered to be a special education teacher. If the teacher holds a special education certificate of any kind, then that teacher is considered to be teaching in-field. The teacher does not have to also hold a mathematics certificate to be considered in-field. Importantly, even though that teacher is assigned to teach mathematics, she/he is not included in the count of mathematics teachers or mathematics full-time equivalents (FTEs).

Difference Between Number of Teachers and Number of Full-Time Equivalents (FTEs)

In this report, the number of teacher full-time equivalents (FTEs) is reported. The data is reported this way because simply counting the number of teachers teaching in-field and out-of-field can be somewhat misleading. For example, suppose John Smith and Mary Jones are both determined to be teaching mathematics courses, but neither has a mathematics certificate. Further, Mr. Smith teaches mathematics for 100 percent of the day while Ms. Jones teaches mathematics only 10 percent of the day. In the count of teachers assigned out-of-field, each individual is counted as one teacher. In contrast, Mr. Smith counts as a 1.00 FTE of a mathematics position and 1.00 FTE of a mathematics position filled by an out-of-field teacher while Ms. Smith counts as only a .10 FTE of a mathematics position and .10 FTE of a mathematics position filled by an out-of-field teacher. Simply counting the numbers of teachers does not take this difference into account.

Moreover, counting teachers rather than teacher FTEs would duplicate the number of teachers counted. For example, if John Smith is teaching out-of-field in biology and physics, then he would count as one teacher assigned out-of-field in biology and one teacher assigned out-of-field in physics. When counting the number of teachers assigned out-of-field, Mr. Smith would be counted *twice*, thus duplicating the count of teachers.

For these reasons, the following data tables include columns for the number of total FTEs, the number and percentage of FTEs in-field, and the number of FTEs out-of-field. The FTE counts provide a more accurate picture of the number and percentage of teaching positions filled by teachers holding (in-field) and not holding (out-of-field) the target certificates.

Lack of Data on Middle School Teachers

SBEC's certification rules allow teachers assigned to teach specific subjects in grades seven and eight if the teacher has (1) a valid general elementary teaching certificate and (2) 18 hours of coursework in the subject she or he is assigned to teach. For example, if a seventh grade mathematics teacher has a valid general elementary teaching certificate and 18 hours of coursework in mathematics, then the SBEC certification rules would consider that person to be certified to teach seventh grade mathematics. Thus, in this analysis, such a teacher would be considered to be teaching out-of-field when, in fact, the person would be teaching in-field. Unfortunately, no mechanism was adopted to collect data on such teachers. Specifically, SBEC does not collect data on whether teachers have 18 hours in a specific subject area. SBEC is currently developing a mechanism to collect such data.

Elementary Departmentalized Teachers

Elementary teachers assigned to teach specific subject areas (such as mathematics or science) rather than self-contained classes (e.g., assigned to teach mathematics all day rather than teaching the same students across the school day) are considered to be teaching in-field if they held a general elementary certificate.

Other Assignment Areas

In addition to the subject and specialization areas described below, teachers can also be assigned to "not applicable" and "other" assignment areas. These specific assignments include locally developed courses, study hall, tutorial, co-curricular activities, content mastery, discipline management, and driver education. Since there are no certification requirements for these assignments, the teacher and teacher FTEs for these assignments are not included in this analysis. There were 56,131 teachers assigned to these assignment areas for a total of 22,136.6 teacher FTEs. If a teacher is assigned part-time to the "not applicable" or "other" areas, then the portion of their time assigned to academic subject or specialization areas is included in the analysis. Only the portion of the teacher FTEs assigned to the "not applicable" or "other" areas is excluded from the analysis.

Definitions of Column Headings

Number of Teacher FTEs:

- **Total:** the total number of teacher full-time equivalents—excluding the "not applicable" and "other" subject areas—assigned to teach in that particular school.
- **In-Field:** the number of teacher full-time equivalents—excluding the "not applicable" and "other" subject areas—assigned to teach in-field in that particular school.
- **Out-of-Field:** the number of teacher full-time equivalents—excluding the "not applicable" and "other" subject areas—assigned to teach out-of-field in that particular school.
- **No Certif:** the number of teacher full-time equivalents—excluding the "not applicable" and "other" subject areas—without a full teaching certificate. Such teachers may be on an emergency permit, enrolled in an alternative certification program, or on a one year out-of-state certificate.

% of Teacher FTEs:

- **In-Field:** the percentage of teacher full-time equivalents—excluding the "not applicable" and "other" subject areas—assigned to teach in-field in that particular school.
- **Out-of-Field:** the percentage of teacher full-time equivalents—excluding the "not applicable" and "other" subject areas—assigned to teach out-of-field in that particular school.
- **No Certif:** the percentage of teacher full-time equivalents—excluding the "not applicable" and "other" subject areas—without a full teaching certificate. Such teachers may be on an emergency permit, enrolled in an alternative certification program, or on a one year out-of-state certificate.

COMPLIANCE STATEMENT

TITLE VI, CIVIL RIGHTS ACT OF 1964; THE MODIFIED COURT ORDER, CIVIL ACTION 5281, FEDERAL DISTRICT COURT, EASTERN DISTRICT OF TEXAS, TYLER DIVISION

Reviews of local education agencies pertaining to compliance with Title VI Civil Rights Act of 1964 and with specific requirements of the Modified Court Order, Civil Action No. 5281, Federal District Court, Eastern District of Texas, Tyler Division are conducted periodically by staff representatives of the Texas Education Agency. These reviews cover at least the following policies and practices:

(1) acceptance policies on student transfers from other school districts;

(2) operation of school bus routes or runs on a nonsegregated basis;

(3) nondiscrimination in extracurricular activities and the use of school facilities;

(4) nondiscriminatory practices in the hiring, assigning, promoting, paying, demoting, reassigning, or dismissing of faculty and staff members who work with children;

(5) enrollment and assignment of students without discrimination on the basis of race, color, or national origin;

(6) nondiscriminatory practices relating to the use of a student's first language; and

(7) evidence of published procedures for hearing complaints and grievances.

In addition to conducting reviews, the Texas Education Agency staff representatives check complaints of discrimination made by a citizen or citizens residing in a school district where it is alleged discriminatory practices have occurred or are occurring.

Where a violation of Title VI of the Civil Rights Act is found, the findings are reported to the Office for Civil Rights, U.S. Department of Education.

If there is a direct violation of the Court Order in Civil Action No. 5281 that cannot be cleared through negotiation, the sanctions required by the Court Order are applied.

TITLE VII, CIVIL RIGHTS ACT OF 1964 AS AMENDED BY THE EQUAL EMPLOYMENT OPPORTUNITY ACT OF 1972; EXECUTIVE ORDERS 11246 AND 11375; EQUAL PAY ACT OF 1964; TITLE IX, EDUCATION AMENDMENTS; REHABILITATION ACT OF 1973 AS AMENDED; 1974 AMENDMENTS TO THE WAGE-HOUR LAW EXPANDING THE AGE DISCRIMINATION IN EMPLOYMENT ACT OF 1967; VIETNAM ERA VETERANS READJUSTMENT ASSISTANCE ACT OF 1972 AS AMENDED; IMMIGRATION REFORM AND CONTROL ACT OF 1986; AMERICANS WITH DISABILITIES ACT OF 1990; AND THE CIVIL RIGHTS ACT OF 1991.

The Texas Education Agency shall comply fully with the nondiscrimination provisions of all federal and state laws, rules, and regulations by assuring that no person shall be excluded from consideration for recruitment, selection, appointment, training, promotion, retention, or any other personnel action, or be denied any benefits or participation in any educational programs or activities which it operates on the grounds of race, religion, color, national origin, sex, disability, age, or veteran status (except where age, sex, or disability constitutes a bona fide occupational qualification necessary to proper and efficient administration). The Texas Education Agency is an Equal Employment Opportunity/Affirmative Action employer.

II. REPRODUCTION RELEASE:

*This is the State Department of Education for Texas. Please use this corporate entry without personal author.

In order to disseminate as widely as possible timely and significant materials of interest to the educational community, documents announced in the monthly abstract journal of the ERIC system, *Resources in Education* (RIE), are usually made available to users in microfiche, reproduced paper copy, and electronic media, and sold through the ERIC Document Reproduction Service (EDRS). Credit is given to the source of each document, and, if reproduction release is granted, one of the following notices is affixed to the document.

If permission is granted to reproduce and disseminate the identified document, please CHECK ONE of the following three options and sign at the bottom of the page.

The sample sticker shown below will be affixed to all Level 1 documents

PERMISSION TO REPRODUCE AND DISSEMINATE THIS MATERIAL HAS BEEN GRANTED BY

Level 2B

☐

Check here for Level 2B release, permitting reproduction and dissemination in microfiche only

Documents will be processed as indicated provided reproduction quality permits.
If permission to reproduce is granted, but no box is checked, documents will be processed at Level 1.

I hereby grant to the Educational Resources Information Center (ERIC) nonexclusive permission to reproduce and disseminate this document as indicated above. Reproduction from the ERIC microfiche or electronic media by persons other than ERIC employees and its system contractors requires permission from the copyright holder. Exception is made for non-profit reproduction by libraries and other service agencies to satisfy information needs of educators in response to discrete inquiries.
